Summary

Full-stack developer building AI-integrated applications with React, Node.js, and FastAPI. Experienced in RAG pipelines, LangGraph agent orchestration, and deployment, with professional experience in LLM evaluation and dataset quality checks.

Skills

Languages: Python, JavaScript, TypeScript, SQL

AI/LLM Tooling: LangChain, LangGraph, RAG, ChromaDB, Groq API, Gemini API

Frontend: React, Redux, Tailwind CSS, Vite

Backend: Node.js, Express, FastAPI

Databases: PostgreSQL, Supabase, MongoDB, MySQL

Tools: Git, GitHub, Docker, AWS, Vercel, Render

Experience

AI Evaluation Specialist Apr 2026 – Jul 2026

Skiled AI (via Pitcs) *Bengaluru, India*

- Evaluated LLM-generated outputs for quality and accuracy using an internal evaluation tool and Python scripts to support the assessment workflow.
- Performed dataset quality checks to support data integrity and reliability for downstream model evaluation.

Web Developer Intern Sep 2024 – Feb 2025

NSDC & Rooman Technologies *Bengaluru, India*

- Built React frontend features and used SQL and MongoDB for data storage and querying.

Projects

Dumroo Admin Panel | *LangChain, Gemini Flash, ChromaDB, Streamlit* GitHub | Live

- Built a school-administration chatbot with a LangChain RAG pipeline and ChromaDB semantic search over school documents and data.
- Integrated Gemini Flash for response generation and deployed the chatbot through a Streamlit interface.

SpendIQ | *React, TypeScript, Node.js, Express, Supabase* GitHub | Live

- Built an AI-powered expense tracker with spending summaries, weekly and category-wise charts, and AI-generated insights; deployed the React frontend on Vercel and Node.js/Express backend on Render.
- Integrated Supabase for user authentication and PostgreSQL storage, with Row-Level Security to control access to user data.

AgentCRM | *LangGraph, FastAPI, React, Redux, PostgreSQL, Groq API* GitHub

- Built a multi-agent CRM platform with LangGraph orchestration and a FastAPI backend integrated with the Groq API for LLM inference.
- Developed a React frontend with Redux state management and PostgreSQL storage to manage CRM data across agent interactions.

Education

Dayananda Sagar Academy of Technology and Management Bengaluru, India

B.E. in Computer Science & Design *2021–2025*

Certifications & Achievements

- AWS Certified Cloud Essentials; Data Analytics Virtual Internship — Deloitte Australia (Forage); Tableau Fundamentals — Infosys Springboard.
- Application Developer (Web) — Rooman Technologies; Java Programming — University of Helsinki.
- Won a hackathon with 50+ participants by developing a full-stack solution.
